

QE Dashboards

Problem Statement

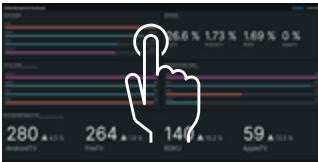

Management is finding it hard to define OKRs and track the Automation progress and requires frequent manual update on statuses

Solution Approach

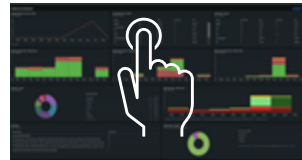

NSQE Dashboards

QE
Management
Dashboard

Automation
Engineer
Dashboard

Benefits

- Continuous feedback through management dashboard, helps to track OKR progress
- Engineer dashboards helps with development and maintenance
- Auto-tracking of automation development progress based on Test Rail and Test Run
- Detailed widgets for trend analysis
- Provides insights on application stability, and any attention required for regression issues.
- Helps with analyzing results between platform and brands for test run
